

Progress - Month 1

The month started with a refreshed webpage and podcast, talking about our plans and hopes for the project. I was invited for a radio interview where I had the chance to talk about this new post and the project which you may be able to listen here, for up to 30 days (link to BBC Radio Wiltshire on Sunday 22nd January - <http://bbc.in/2jOkm1c> at 2:53:50 ish).

What else has been going on I hear you say? Well, I've been integrated (into the wonderful Adult Education team), inducted, introduced, recorded and had some more training to attend myself and this has included an in-depth discussion with Fr Matthew and Veronica of the Archdiocese of Liverpool who helped to write the Baptism Preparation material that we are building ours on. Veronica shared some very positive feedback as to the success of their pilots and families are now always invited for baptism preparation.

The great news for us is that we have our pilot priests on board in our three parishes and I'm looking forward to meeting the catechists and teams during February, and to begin their training.

Thanks to all of you who have expressed an interest and sent your encouragement.

We're off!
